Gulf Oil Dragracing dream debut

Litlington, Cambridgeshire UK, 4th May 2011

The Gulf Oil - Grand Prix Originals - Top Fuel Bike made a dream debut on the notoriously tricky Kunmadaras track in Hungary when the 1500 horsepower machine (managed by multiple championship winners King Racing) stunned many with an unbelievable 6.57 second run at over 200 mph on only its 3rd ever run on track despite very conservative power settings.

After qualifying on pole, British rider Ian King set low elapsed time and high terminal speed of all bikes in competition on his way to defeating Canadian rider Nate Gagnon and taking the early championship points lead.

The former Soviet Nuclear Bomber airfield track is known to lack the grip required by the more powerful machines so this performance bodes well for the team's next race and UK debut on one of the fastest tracks in Europe, Santa Pod Raceway on the 27th – 30th May.
