

King Racing Air on Monday

26th August 2005, London England; -

UK Top Fuel Bike rider Ian King will feature on the forthcoming 'Big Big Bikes' programme on the Discovery UK at 10pm GMT this Monday 29th August.

The program kick's off with the fastest bikes in the world and is opened with a great section featuring Ian and his race bike in action at the UK's Santa Pod Raceway. Ian explains the reason why he races, how a Top Fuel Bike functions, and what it is like to ride a 1000 horsepower machine to over 200 mph in 6 seconds.

'Big Big Bikes' is 2 x 60-minute shows presented by Vicki Butler – Henderson which seek out the most outrageous machines and riders on the planet. Their search also took the production team to Sweden to find the machine listed in the Guinness Book of Records as the biggest and to the USA and Italy in search of the fastest, most expensive, toughest, coolest and most extreme bikes in existence. The aim? To decide which is the ultimate two-wheeler. Says producer Dave Lewis: This is no ordinary road test show. It's fun, off the wall, and not always scientific! The bikes are rated using categories like speed, size and looks to give viewers the ultimate Top Trump set.

According to Lewis Big, Big Bikes is all about talking to people with a passion for their sport and sharing their enthusiasm; from the old lady in Hong Kong on her Harley to the punk rocker from Penang.

King Racing's next event is the Mosten Raceday in Denmark, 2 – 4th September 2005.

King Racing are proud to be supported in their 2005 campaign by:
